About Bohne Bombay

Inspired by coffee innovation and sustainability, Bohne Bombay is designed to meet the needs of offices, cafés, and high-traffic venues. With advanced brewing technology, IoT-enabled remote monitoring, and energy-efficient operation, this machine ensures seamless performance, high-quality coffee, and minimal downtime. Designed to meet the needs of fast-paced spaces, the Bohne Bombay provides exceptional coffee with minimal downtime—empowering your team or customers to enjoy a premium coffee experience effortlessly

Perfect for Every Space

Offices:

Enhance workplace productivity with a one-touch, low-maintenance coffee solution.

Tea and coffee carts:

Serve consistent, high-quality coffees with quick brewing speed and professional steam functionality.

Coffee Kiosks & Busy Venues:

Compact, powerful, and energy-efficient, designed to handle high demand effortlessly.

Uncompromised Quality, Every Cup

Premium Brewing Technology

GraviBrew Metallic Brewing Unit:

Durable, metal construction ensures long-lasting performance and consistent espresso extraction.

Fast Grinding System (FGS):

Optimised grind speed prevents overheating, delivering fresh coffee with rich flavour.

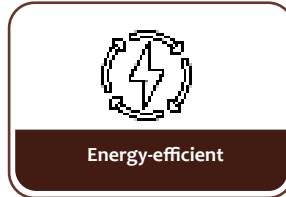

Boiler-less Technology:

90% more energy-efficient, ensuring precise temperature control and faster heat-up times.

Smart Features for Modern Convenience

- 10.1" Android Touch Screen: Intuitive interface for one-touch brewing & cleaning.
- Steam Wand: Adjustable professional steam wand for frothing milk and making hot chocolate.
- Smart IoT Connectivity: Remote monitoring, maintenance alerts, and OTA updates for seamless operation.

Features and Innovations:

**Invest in the Bohne Bombay through Kaapi Machines
your trusted coffee partner!**
