LEVA

**reimagining what a  
lever-actuated espresso  
machine can be**

## AVAILABLE CONFIGURATIONS

////

no. groups: **2 | 3**

configurations: **LEVER (leva s, leva x)**

Featuring eye-catching design and a lower profile to invite customer interaction, Leva re-invents the iconic lever machine design with more ergonomic elements. Leva is a cutting-edge café centerpiece that encourages engagement, barista experimentation, and coffee conversations, while delivering a delicious coffee extraction.

Leva brings with it design, focusing not just on physical beauty, but also on the satisfaction found in a truly mechanical system.

## LEVA HIGHLIGHT

////////

### live pressure visualization (leva x only)

The Leva is equipped with dedicated graphical displays for each group. The displays provide live visualization of pre-infusion pressure, extraction pressure, and time throughout the course of the shot. After the coffee has been delivered, the extraction curve and parameters are visualized on the displays as a graph. The barista has the ability to overlay past visualizations, saving up to four graphs for each group, as guides for future extractions.

## FEATURES

////////

### independent brew boilers (leva x)

Separate boilers for each group head allow baristas to optimize temperature for individual coffees

### smart PID (leva x)

An advanced PID controller greatly improves the machine's temperature stability

### pro touch steam wands

Vacuum-insulated double-walled steam wands remain cool while delivering high-volume dry steam

### ECO mode

Boiler temperatures reduce to lower set-points after extended idle periods, improving energy efficiency

### military-grade steam potentiometer (leva x)

Proportional steam valves facilitate machine usability and maintenance while improving its durability
