The La Marzocco Linea Classic is the machine that has supported the development of the specialty coffee industry since 1989. The clean lines and familiar charm of the Linea Classic occupy many of the cafés, roasteries, and chains whose names have defined the industry.

The Linea Classic is a heavy duty workhorse that performs reliably in high-volume settings. A tried-and-true machine, the Linea Classic is perfect for your new café, bar, or restaurant.

LINEA CLASSIC HIGHLIGHT

PID controller

The PID controller employs an algorithm to regulate when and for how long the heating element is engaged in the brew boiler. The PID controller allows more efficient and stable regulation of energy. With this level of control, temperature variability is reduced dramatically, making for a more consistent brew temperature. The barista is able to adjust the brew boiler temperature to a precise numerical value using a simple keypad.
