FEATURES

EXQUISITE DESIGN

Finely crafted industrial design from Germany, professional sign for multi commercial scenarios.

EFFICIENT PRODUCTION

Fast heating system can generate hot water extremely rapidly thanks to the advanced boiler with total heating power of 2500W.

28 seconds per cup for Espresso; One bean and two powders configuration; diverse beverage choices.

STABLE PRODUCTION

Continuous extraction espresso TDS can reach 9 mg/L, cup volume deviation $\pm 5\%$, coffee temperature deviation $\pm 3^\circ\text{C}$.

MACHINE STABILITY

Globally sourced core components undergo comprehensive 100% testing, guaranteeing exceptional reliability. The machine is designed to endure for over 60 thousand cups, showcasing lasting performance.

EASY OPERATION

Beverage preparation: 10.1" Android color touch display and multi-scenario mode help prepare the beverages efficiently with a single touch and adjust the parameters of the beverages flexibly.

Cleaning and maintenance: Brewing and frothing systems undergo automatic cleaning each time when the machine is turned on or off. Both bean hopper(s) and milk frother are detachable, making them more convenient to clean.

TECHNICAL ADVANTAGES

ACCURATE GRINDING

High quality and durability of Ditting's metal burr produce uniform coffee grounds, ensuring the best flavor and quality in every cup. These metal burrs are typically more robust and can sustain prolonged, reliable grinding performance, making them an essential choice for high-volume coffee production environments.

ROBUST BREWING UNIT

The professional brewing system produces extraction pressures of up to 9 Bar, 22g brewer with a larger capacity produces a greater volume of coffee.

FRESH MILK SYSTEM

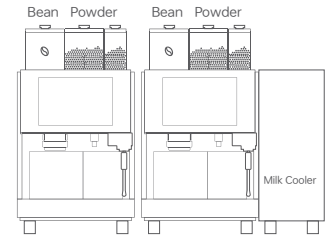

The optimized milk system is able to mix the right quantities of steam, milk and air, creating delicate milk foam that can be heated up to 60-70°C.

IoT PLATFORM (OPTIONAL)

IoT Coffee Cloud offers you a comprehensive coffee machine management solution: real-time equipment status monitoring, beverage statistics tracking, malfunction events recording, operation and maintenance management, online batch beverage customization and remote Ad contents switching.

PRODUCT SPECIFICATIONS

	Product	Budan M400
Capacity	Advised daily output (cup)	180-200 cups
	Hourly output (cup)	Espresso: 120
		Americano: 80
		Cappuccino: 105
		Hot chocolate: 105
Technical data	Water tank capacity (L)	4
	Bean hopper capacity (g)	1*1200
	Powder hopper capacity (g)	1500+1200
	Waste bin full (counter)	45 portions
	Screen type	10.1" color screen
	Voltage (V)	220-240
	Frequency (Hz)	50-60
	Power (W)	2500
	Net weight (kg)	30
	Dimensions D*W*H (mm)	560*380*680
	Brewer capacity (g)	9~22g
	Drip tray capacity (L)	2
	Boiler quantity (pcs)	2
Feature	Steam wand	Yes
	Separate hot water wand	Yes
	Milk powder & fresh milk	Yes
	DIY coffee	Yes
	Barrelled water	Optional
	Fixed water	Optional
	Tank water	Yes
	MDB payment	Optional
	Milk/powder system automatic clean	Yes
	Digital service (IoT)	Optional
